## The Future of Medicine

Ticker (OTCQB: USAQ) • Stock Price \$0.20 • Shares Outstanding 9.0M • Market Cap \$1.8M

**QHSLab, Inc. (OTCQB: USAQ)** provides primary care physicians with digital medicine solutions and point-of-care diagnostic tests, allowing physicians to quickly and effectively assess patient responses to healthcare screening using advanced artificial intelligence algorithms. QHSLab, Inc. also markets and sells point-of-care, rapid response diagnostic tests used in the primary care practice. QHSLab Inc.'s products and services are designed to help physicians improve patient monitoring and medical care while also improving the service revenues of their practice.

**QHSLab, Inc. increases practices' efficiency and reduces providers' non-clinical workload. As a result, we streamline the patient-provider relationship, getting them to work smarter together, providing patients with increased value for the money spent on healthcare, and creating a new revenue stream for the primary care practice that desperately needs it.**

*Subscription-Based,  
Recurring Revenue Model*

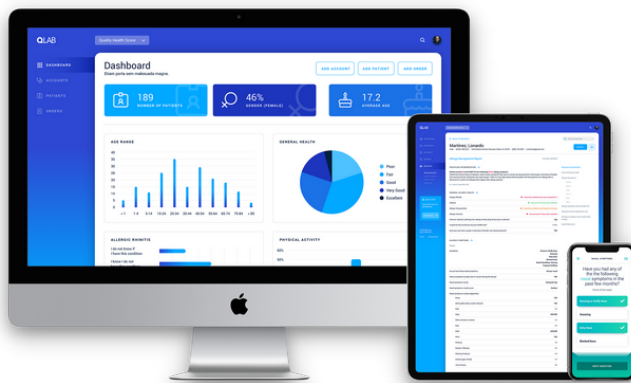

*Growing Gross Profit  
Margins*

*Multi-Billion Dollar Market  
of 450K Physicians*

*Proven and Profitable  
Insurance Reimbursements*

Our software platforms and point-of-care diagnostics and treatments expand the usefulness and benefits for the patient and physician in the growing, essential trend of virtual medicine.

Practices are quickly adopting secure, health-based technology tools that enable them to interact with patients who need health care services, even when they are not in the medical office.
